

FOCUS ON... ENERGY STAR® QUALIFIED PRODUCTS

Ultra Low-E™ Acrylic Block Windows Perform Better And Look Great

Ultra Low-E™ acrylic block windows by Crystal View™ Block Window Systems are one of the only block windows that meet both ENERGY STAR® requirements and are NFRC certified in all four regions of the United States. With Ultra Low-E™ acrylic block windows, you capture the benefits of a triple pane window and Low-E coating technology while getting a great looking window that adds distinction and privacy to any setting.

Ultra Low-E™ acrylic block windows simply perform better than any traditional glass block or standard acrylic

block windows on the market. In fact, Ultra Low-E™ block windows are 55% MORE energy efficient than glass block windows and are 20% MORE energy efficient than standard acrylic block windows.

Other benefits include...

- 73% glare reduction during daylight hours
- 99% ultraviolet radiation protection reducing fading of furnishings and other interior surfaces
- Diminished heat gain inside the home improving HVAC efficiency

- Impact resistant acrylic block made of high-grade impact modified virgin acrylic that is 4 times stronger than standard acrylic
- And so much more

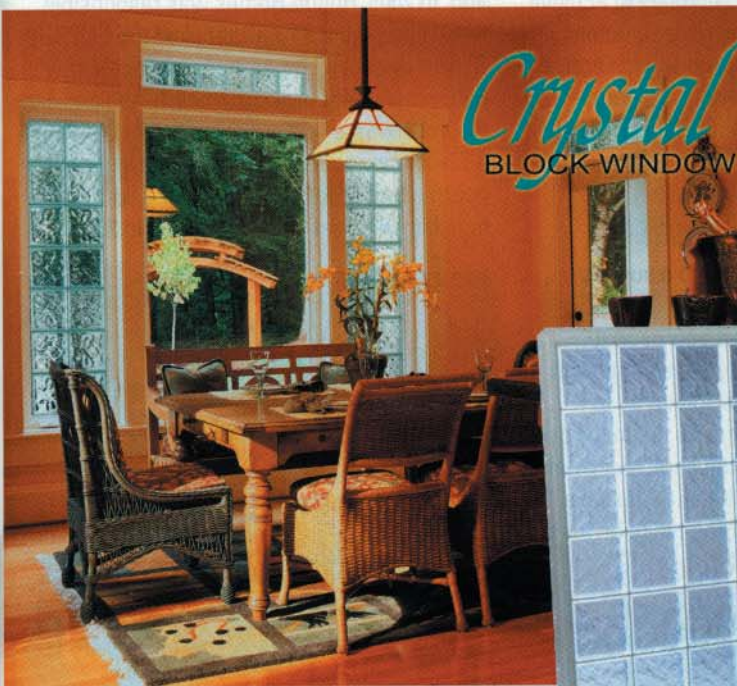

Each Crystal View™ Ultra Low-E™ acrylic block window is pre-fabricated to match standard rough openings, is lightweight and easy to install. Available in aluminum and vinyl frames with 5 standard colors and 4 glass design patterns, you'll find just the right block window for your next project—delivered on-time with no call-backs.

We're so confident in the high-performance levels and aesthetic charm of the Crystal View™ line that Builders Accessories, Inc. offers a lifetime warranty to the original homeowner as a standard feature with each window.

With Crystal View™ there is no longer any need to compromise on efficiency when adding a block window to your next home.
