## FOR IMMEDIATE RELEASE

**BUILDERS ACCESSORIES, INC. ACHIEVES UNMATCHED ENERGY PERFORMANCE WITH ITS NEW ULTRA LOW-E™ ACRYLIC BLOCK**

PHOENIX, AZ, June 2, 2003 - Builders Accessories Incorporated, a pioneering leader in the advancement of prefabricated glass and acrylic block windows, recently unveiled its new, patent pending system to **ULTRA Low-E™ acrylic block, allowing its Crystal View™ revolutionary treatment in NFRC Certified U-Factor of 0.35 and a SHGC of 0.39.** This specialty option is spectrally selective, offering the high insulating value of the standard Crystal View™ acrylic block window. Available in all standard size Crystal view™ acrylic block windows for only a nominal cost per unit. According to company executives, many prefabricated block window manufacturers have not offered this new specialty option. Prior to NFRC's adoption of the category of energy performance compared to their dual pane glass window. Prior to NFRC's adoption of the category of energy performance compared to their dual pane glass window.
