Circle no. 738

To make the ultimate acrylic block with unmatched **STRENGTH**, Builders Accessories has created a special blend of acrylic and simulated the look of traditional masonry glass block, combining engineering from the automotive, airline and window industries. The advanced technology of Crystal View™ acrylic blocks allows Builders Accessories to offer higher **PERFORMANCE** above any other glass or acrylic block window available today. A specialized assembly process that extends beyond the standards of all other block window products ensures the highest level of **QUALITY** in every Crystal View™ acrylic block window.
