

BUILDING PRODUCTS

A HANLEY-WOOD, INC., PUBLICATION

MAY/JUNE 1999

35 Builders Accessories. These glass block windows are 35 percent more energy-efficient than comparable products, the firm says. The 2100 series aluminum frame and the 3100 series thermal-break frame windows are more impact-resistant and 80 percent lighter than other glass products, the maker says. Available in several colors, the blocks allow 92 percent of light transmission. 602-921-7085. Circle 159.
